

# IT'S SIMPLE, IT WORKS...

## ...IT DOES WHAT IT SAYS ON THE PACK

### ecobug® NO MORE SMELLY BINS!

With increasing pressure to recycle and separate organic waste material, the problem of storage prior to collection can result in extreme bad odour. Well, we have the answer to "Smelly Bins"! Originally designed and successfully used by landfill site operators, our specialist treatment has been packaged to bring an answer to this every day problem:

- Eradicates mal-odour
- Accelerates degradation
- Is a natural fly repellent

Available as:

concentrate to be diluted 10:1; 5 litre & 1 litre concentrate

or as a ready to use pre-diluted 750ml hand spray.

HOTELS, PUBS, SCHOOLS, COUNCILS, OFFICES, HOMES...  
...WHERE EVER FOOD WASTE LINGERS..!

# IMPROVE YOUR ENVIRONMENT with ecobug® - NO MORE SMELLY BINS

FROM our successful  
ecobug® Landfill Spray  
Management System...

## FOUR KEY BENEFITS

ERADICATES MAL ODOUR

Continuous daily spraying on fresh waste will make mal odour a thing of the past - see a marked change in just a few days.

ACCELERATES DEGRADATION

ecobug® is a clean, fast working biological solution of good bacteria digesting the proteins, starch, carbohydrates, fats, oils, greases and vegetation.

NATURAL FLY REPELLENT

The formulation of the ecobug® waste management solution contains a natural fly repellent. Simple, effective and totally environmentally friendly.

LOCAL COMMUNITY

Improve local community relations with neighbours as the bad smells often the cause of rubbish rage are contained by ecobug®.
